

**DESCRIPTION**

Designed for the Next Unit of Computing (NUC) platform, the Streacom NC1 delivers silent computing in an impossibly small package. The case is modular, meaning that front, rear and CPU cooler can be replaced to accommodate future NUC motherboards and its acrylic sides allow for internal WiFi and Bluetooth signals to propagate, keeping the outside sleek and clutter free. The optional VESA compatible mount allows it to be hidden behind the monitor, but with looks like this, we think most people will have it on display.

MODEL USAGE

Silent Home Media (HTPC), Thin Client, Surveillance, Kiosk, Digital Signage, Home Automation, POS, Embedded Systems

COMPACT

Small footprint, ideal for use in places with limited space. The optional VESA mount turns any display into a compact PC

0DB COMPUTING – TOTALLY SILENT SOLUTION

With its built in passive (fanless) CPU and chipset cooler, it is possible to set up a totally silent computer, 100% noise free

TIMELESS DESIGN

Minimalist design and the use of high-quality materials characterize this case

CONNECTIVITY

Acrylic sides for best WiFi and Bluetooth reception

EASY INSTALLATION

The user manual contains clear and precise illustrations which show every step of the installation process

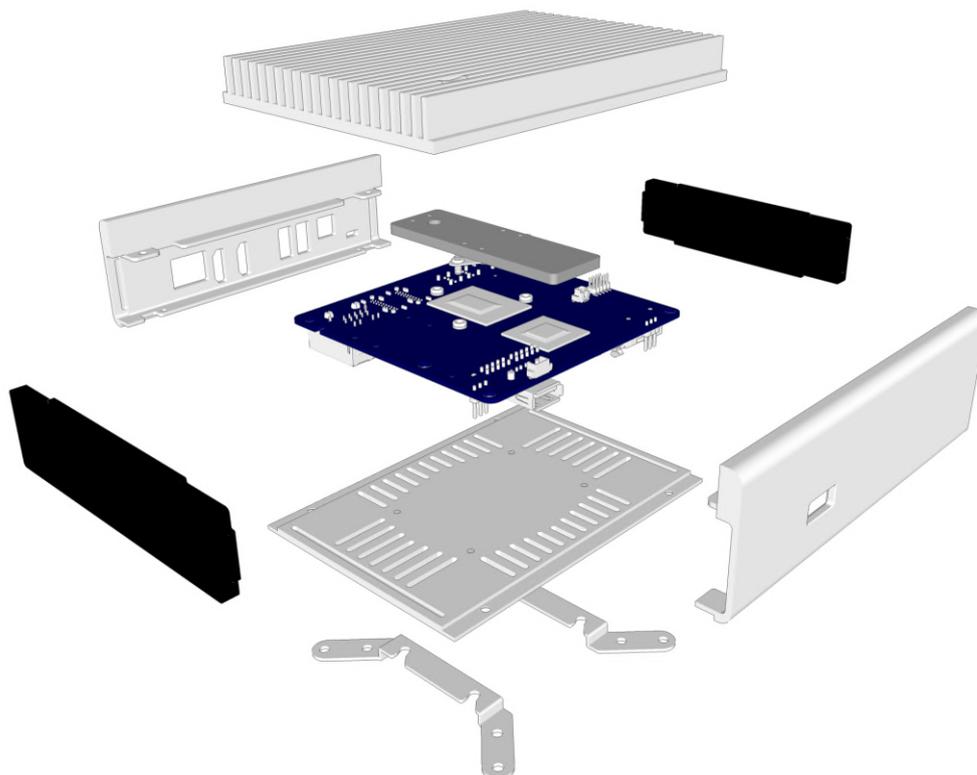

SPECIFICATION

Chassis Material	Extruded & Milled Aluminium, Acrylic sides
Available Colours	Silver / Black - Sandblast Finish
Motherboard Compatibility	Intel® NUC Platform
HDD Drive Support	None, mSSD on Motherboard
ODD Drive Support	None
Expansion Slot	None, mini PCIe on Motherboard
USB Ports	Fixed to Motherboard
Cooling	Finned Top Panel 20W
Dimensions	150 × 112 × 48mm (W×D×H)
Power Supply Support	External AC Adapter (Supplied with Motherboard)
IR Solution	None
Net Weight	0.65KG

NUC MODEL COMPATIBILITY

MODEL	NC1 GK	NC1 CK	NC1 RK
D33217GKE	X		
D33217CK		X	
DCP847SKE	X		
D53427RKW			X
